

# **JEE Advanced – Official Rank Tie-Breaking Rules**

When two or more candidates obtain the same total marks in JEE Advanced, the following tie-breaking rules are applied sequentially by the JEE Advanced Organising Committee:

- 1 Higher aggregate positive marks (excluding negative marks).
- 2 Higher marks in Mathematics.
- 3 Higher marks in Physics.
- 4 Higher marks in Chemistry.
- 5 If all the above are identical, the candidates are awarded the same rank.

Notes:

- These rules apply to the Common Rank List (CRL) as well as category-wise rank lists.
- Age, board marks, or category are not used for tie-breaking.
- Same-rank candidates are treated equally during JoSAA counselling.
